SUMMARY

Highly motivated Web Developer proficient in MERN stack development. Skilled in crafting visually appealing and interactive websites using HTML, CSS, JavaScript, and React. Built robust and secure backends leveraging Node.js, Express, and MongoDB. Implemented robust encryption and authentication methods to ensure data integrity and prevent breaches. Passionate about continuous learning and tackling new challenges.

EXPERIENCES

E-Commerce website ↗ | React, SASS, TypeScript, Redux, Node.js, Express, MongoDB   **Working**

- Developed a scalable e-commerce platform using the MERN stack and TypeScript, empowering users to seamlessly browse and purchase products.
- Implemented a dashboard with charts and tables to display website data, using Redux Toolkit Query for data fetching and caching, and Chart.js for data visualization.
- Improved website performance and user experience with SCSS, 95% responsiveness, lazy loading, and web development best practices, achieving a 75% score on the Lighthouse report.
- Integrated Stripe for secure and easy payment processing and added authentication using Firebase.

MERN Stack Website ↗ | React, Chakra UI, Redux, Node.js, Express, MongoDB   **2023**

- Built a full-stack online learning platform using the MERN stack, allowing users to subscribe and watch lectures on various topics and levels.
- Implemented a 100% secure authentication system using JWT and bcrypt, and a dark and light theme mode using Chakra UI, enhancing the user experience and security.
- Created an admin dashboard with real-time stats and data visualization for users, courses, subscriptions, and views using Chart.js, widgets, and tables, improving website management and analysis.
- Tested, debugged, and deployed the website using Vercel, ensuring website performance and achieving an 85% score on the Lighthouse report.

Static Admin Dashboard ↗ | React, SCSS, TypeScript, Chart.js, React-Tables   **2024**

- Created a static admin dashboard using React and SCSS, displaying data from different sources in a user-friendly and responsive way.
- Developed various types of charts and tables using Chart.js and React-Table, providing data visualization and analysis for sales, revenue, traffic, and users.
- Engineered a visually stunning and responsive dashboard using TypeScript, integrating colorful widgets to amplify user experience and optimize functionality.
- Ensured the dashboard is 100% responsive and compatible with all devices using media queries.

SKILLS

Frontend: HTML, CSS, SCSS, Tailwind CSS, React, Redux Toolkit, Chart.js
Backend: Node.js, Express, MongoDB, Mongoose, JWT
Languages: JavaScript, TypeScript, Python (basics)
Version Control: Git, GitHub
Soft Skills: Problem-solving, Hard-working, Creativity, Adaptability, Critical thinking, Communication Skills

EDUCATION

Islamic University Mukarram Mosque, Gujranwala   **2014 -2019**
Master in Islamic Studies   *Gujranwala, Pakistan*

CERTIFICATES

- JavaScript Specialist Certification
- Responsive Web Design Certificate
